

Mount Adapter for *DigiCAM*[™] [type N]

Weight: 10 kg

Image shows mount adapter with optional IMU adapter plate.

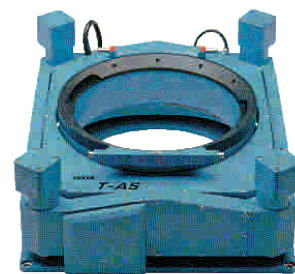

It is possible to install one or two cameras into the adapter. The cameras will be controlled and monitored by the *DigiControl* computer. Likewise, one *CCNS4* is enough to trigger the cameras, and by the *AEROcontrol* the elements of exterior orientation can be determined for all cameras.

The mount adapter is custom-made for operations in the Zeiss Oberkochen/Z/I Imaging, Intergraph T-AS mount.

A mount adapter for the

- Somag GSM3000
- Wild/Leica PAV10/20/30
- Zeiss-Jena LMK1000/SM2000

is available as well.

Example of T-AS mount.
